

Rapid Recovery From Trauma

New, High-Speed TEAM-CBT Treatment Techniques

Presented by

David Burns, M.D.

Overview

Dr. Burns will describe how the TEAM-CBT treatment approach can be used with clients dealing with trauma. **TEAM** refers to Testing, Empathy, Agenda Setting & Method. Based on research on how psychotherapy actually works, it addresses many of the shortcomings in traditional CBT. TEAM-CBT offers rapid, profound, and lasting clinical change. **It's like CBT on steroids.**

In this workshop you will learn practical methods you can use right away in your clinical work. Although the focus will be on the treatment of clients who have experienced severe trauma, you will find the techniques will dramatically improve your effectiveness with all your depressed and anxious clients.

Objectives: Participants will be able to describe:

- The main cause of nearly all therapeutic failure
- The four components of TEAM-CBT
- How to track therapeutic progress at every session
- The 5 secrets of effective communication
- The 8 most common forms of therapeutic resistance
- Powerful resistance-busting techniques
- How to uncover and modify self-defeating beliefs
- Powerful relapse prevention techniques

15 Hours

Intro to TEAM-CBT Applied to Trauma

- Sources and Impact of Trauma
- Treatment Myths
