Speaker
Very well done
Very little time was actually devoted to the issue of discussing meds with clients
Very knowledgeable and down to earth
Very informative and helpful
Very good presenter, good command of the material and content
Very engage, informative and excellent presenter
Very engaging speaker, this training has energized my desire to learn more about the functioning of the brain as related to both emotional and physical health
Very easy to listen to, I liked his format
Very down to earth, takes extremely complex concepts and makes them easily understood, excellent!
Very helpful
too much too fast
too much data and not enough time
Title for day 2 was not consistent
Slides were confusing at times
Quality of instructor was good but content related to issues/ethics in psychopharmacology was not what I expected
Outstanding
One video was 30 years old and out of date
Not stimulating
Loved the humor, good at presenting complicated info in a simple manner so I could understand it
Knowledgeable, engaging and did not talk down o group. Took time to clarify
I PARTICULARLY APPRICATE HIS INTERGRATION OF MATERIAL ON BUDDISM
I have no degree and followed all the material easily with his visuals and examples
I appreciate the mix of research, clinical suggestions, applications and personal experience
humorous, informative and thought provoking
he was able to keep me focused in all topics
He made a complex and potentially tedious topic interesting and understandable

Excellent presentation
Excellent presentation
Excellent & clear content
Difficult to address question in large group but a outstanding and fantastic instructor
Day 1 was a little basic but day 2 was much better
At times, presentation seemed disjointed

At times he was too fast with slides and very easy to miss key points

Appreciated his willingness to spend extra time to answer questions

Add "in place" stretch breaks of 3-4 minutes every 45 minutes

A very effective presenter & obviously knows his stuff.

A real professional with a wonderful field of knowledge

Overall

Very good! So much knowledge

Too bad some of the videos could not be played either due to equipment failure of user error. It took away from the presentation

The best among all the programs I have attended.
