

Ethical Issues in the Electronic Age

Presented by
Linda Knauss, Ph.D., ABPP

Overview

New ethical issues are emerging in this rapidly changing environment of electronic communication and telehealth. However, specific standards do not exist to address these dilemmas. Knowing how to respond to these challenges requires a unique approach to ethical decision making grounded in the overarching ethical principles.

This workshop will focus on the ways in which electronic communication, telehealth, and social media promote or prevent client welfare. Dr. Knauss will present case examples and participants will be encouraged to share their own ethical dilemmas.
