OPEN QUESTION

4) Comments regarding the speaker's quality of instruction and teaching ability:

Would suggest sending the .pdf's of the handouts in color rather than B/W. Would have made following the PP easier as I had it on split screen as he was presenting.

Great presentation. I learned a lot and have many take-aways to use in my practice. Thank you!

Dr. Miklowitz's presentation was outstanding. I particularly appreciated the practicality and emphasis on treatment, interventions and communications strategies, as well as the variety of ways the materials was presented. Thank you!

OPEN QUESTION

Comment:

You solved the computer audio issue on the 2nd day which made it easier to follow the videos.

My only disappointment was the fact that on Friday - I think it may have begun in the afternoon session - there was significant static with the microphones which was an irritant. Even when I turned down the sound on my computer the static persisted.

Otherwise, the technology was very user friendly, especially for someone who is tech challenged.

Was it necessary to have unique links for each session?

Comments:

as above

In the Friday afternoon session the audio quality was poor. There was a lot of static and it made it difficult to understand the speakers. Also the hand held mics had issues with not working properly.

I didn't require any accommodations as I was a webinar participant. I didn't have any questions or issues that needed to be addressed.
