13) Additional Overall Comments, Criticisms, Compliments, and Suggestions (What can we do to improve our programs)?

The only problem I had was with internet connection, which went in and out a couple of times during the course. However, the handouts and quality of the presentation made up of what I missed.

I am very pleased with the professional knoweldge gained from the seminars.

I am so thankful for interactive on line webinars this allows a professional to keep up with the times with out it being a burden time and money wise to travel /overnight just to keep up with your professional requirements and knowledge.
