OPEN QUESTION

4) Comments regarding the speaker's quality of instruction and teaching ability:

It would be helpful if the speaker was more familiar with zoom capabilities and virtual facilitation. The meeting format in zoom would have been better to allow people to turn their microphone on to ask questions as opposed to needing to submit in Q&A

I was very impressed with the style of communication of the presenter: direct and very honest.

I did feel some concern that he was not going to cover all the materials before the time was up. He did seem to accomplish that.

Some of the slides were fine for showing, but the printed power point have some slides that are unreadable as printed.

OPEN QUESTION

Comments:

This has been the best seminar about Ethics that I have ever been to.

When I registered I thought I'd get a discount being offered at that time but it never showed up. Waste of money anyway. Compares poorly with what anyone from PPA would do on ethics. This was so unprofessional, biased and uninformed. I bet he confused those who knew little. An he struck me as a "high maintenance presenter" who asked for help on matters he should have handled. Seemed like that was a "power play" at times, especially with Katie. Reading an entire slide? Not necessary.

I thought it was an excellent webinar training.

Comment:

Highly likely if virtual webinars are offered, highly unlikely if in person due to travel time

Will hopefully be there live on July 14th & 15th for a needed pharmacology update.

The timeframe for the Webinar was appropriate for my work schedule.

OPEN QUESTION

13) Additional Overall Comments, Criticisms, Compliments, and Suggestions (What can we do to improve our programs)?

It would be helpful when there is a course that corresponds to a specific PA regulation to have speakers who can speak to the specifics and answer questions. Such as in this presentation which was an overview and any question specific to PA was met with "google it". While the resources were helpful it would also be helpful to have a presenter who can readily reference regulations and answer follow up questions

You are doing great.

sOverall, the training was helpful particularly information regarding tele therapy.
